Master of Computer Applications – 7.83 CGPA   Saharanpur,Uttar Pradesh

The Glocal University   Sep. 2017 – July. 2022
Bachelor of Computer Applications – 7.32 CGPA   Saharanpur, Uttarpradesh

PROJECTS

URL-Shortner

- Designed and implemented a URL shortening system, **creating over 10,000 concise aliases for lengthy URLs**.
- Developed and optimized **URL shortening applications using JavaScript, MongoDB, Redis, and Axios, resulting in a 40% reduction in page load time for a seamless user experience**

Blogging Site

- Successfully developed the Blogging site, a robust web application facilitating the creation, publication, and management of over **5,000 user-generated blog posts**, providing a dynamic platform for content creators
- Leveraged cutting-edge technologies, including React, Node.js, Express.js, MongoDB, and JWT, to construct a **feature-rich and highly robust platform** that served **over 100,000** users, ensuring top-tier performance and security.

E-Commerce

- Spearheaded a **feature-driven development project**, supervising the meticulous development of individual components, including **Users, Books, and Blogs**, resulting in the successful delivery of **over 30 features** within a specified timeline.
- Ensured the rigorous completion of each feature, spanning **User, Product, Cart, and Order**, with a remarkable **100% feature completion rate**, meticulously advancing to the next phase, ensuring project milestones were consistently met
- Secured a remarkable **99.9% reduction in vulnerabilities** by implementing a highly secure JWT-based authentication system, significantly enhancing project security and usability.

SKILLS

Python, C++, JavaScript, HTML/CSS, MySQL, React, Node.js
VCS : Git
GUI :MongoDB Compass
API Testing Platform :Postman
